PERSONAL

❤ TECH STACK

frameworks: React/Next.js/Svelte/Astro/Vue
Frontend: TS / JS / HTML / CSS / SASS : *Expert*
Backend: Node / Python / PHP / Rust / Swift / Go : *Expert*
Platform: Electron / Tauri / React Native / Flutter : *Expert*

INTERESTS

FPV drone racing, cross-platform development, IoT devices, electronics engineering, 3D-printing, hardware development, problem solving, novel user interaction.

QUALITIES

Tech leader. Passionate about quality. Communicative and accessible; Reliable, confident, and eager to build. A highly motivated problem-solver.

EDUCATION

B.S. Computer Science
2009 - 2014 | Appalachian State University

OPEN-SOURCE

2024
Uibrary ★

Uibrary: Live Collections of UI Component Libraries
UI libraries (like shadcn) presented in live, dynamic fashion. Available to remix or install.

2015
CrossOver ★

CrossOver: CrossHair Overlay
Electron Cross-platform custom crosshairs for PC video games. Featured in the Windows app store and Snapcraft store.

2014
Casper ★

Casper: A Ghost-like WordPress theme
WordPress port of the popular Ghost theme, Casper; Custom PHP WP theme.

2006
XSPF Jukebox ★

XSPF Jukebox: Flash Audio + Video Player
Flash media player & plugin. Widespread use on popular websites and packaged with PHP framework SocialEngine; Python/PHP backend playlist generation.

CLOSED-SOURCE

2025
Juno AI ★

Juno AI: Voice-Operate Your Computer
Rust + Tauri Desktop app built on OpenAI Whisper and Anthropic Computer-use.

2024
Shipkit ★

Shipkit: Next.js Accelerator
Full-featured Next.js Starter and toolkit for building, launching, and monetizing MVPs.

HARDWARE

2018
Twilio Hackpack

Twilio Hackpack v4
Twilio's Open Source Hardware Badge, built for SIGNAL Conference 2018. Joystick, lights, 7 buttons, a touchscreen, on a Raspberry Pi Zero, in a 3D-printed case.

DEVELOPER EXPERIENCE

...Continued

2023
Lumenai
(Startup)

Senior Web Engineer - Browser Extension
- Contract Full-Stack Web Developer - Helped create foundational internal apps and build process for a browser extension using RPA automation, React, SASS, Docker
- Created dynamic robust UI screens React, Typescript, Jest, automated deployments, and self-built CI/CD. **The company saw a 15% rise in productivity and experienced 35% growth in 6 months.**

2023
TekSystems

React Developer
- Government contract with the VA.
- Built health medicine tools + calculators to lessen the amount of information patients had to fill out and help physicians get accurate stats about health issues.

Appalachian State University

Full-Stack Web Developer
Full-Stack Web Developer - Built internal websites and scheduling software. Helped develop back office software. Created custom CMS framework with PHP, Postgres used by all campus web pages; DevOps - Managed database and handled deployments. PHP, Python, Postgres, MySQL, PHPWebsite, PHPUnit, Git, Apache

2010
Red Ventures

Web Design Intern
Front-End Web Developer - Created 10+ branded advertising websites and unique user interactions; Sliced Photoshop files to create HTML emailsPHP, MySQL, Linux

FREELANCE EXPERIENCE

2023
Taesanti

taesanti.com
Complete web design & development for local community organization. **Shopify**

2022
Space Monkey Films

spacemonkeyfilms.us
Complete web design & development for Drone Media company in SF. **Wix**, WP

2012 - 2016
Phase2 Productions

kimbrattain.com
Complete web design & development for Phase2 and Kim Brattain Media. Developed custom WordPress theme. Linux, Apache, MySQL, PHP, WordPress

2015
Hold Me Tight Charlotte

Holdmetightcharlotte.com
Complete web, identity, design, and development. Developed custom WordPress theme; Linux, Apache, MySQL, PHP, WordPress

2013
Boone Community Network

Boonecommunitynetwork.com
Complete web design & development. Created custom social network developed for the city of Boone, NC; Linux, Apache, MySQL, PHP, SocialEngine

2012
Cosmic Cart (Startup)

Cosmiccart.com
Created custom email notification system, authentication system, splash page for product launch; Linux, Apache, MySQL, PHP

2012
Charlie's Vision

charliesvision.com
Complete web identity, design, and development. Created web presence for a charity fundraiser; Linux, Apache, MySQL, PHP

2012
Mission Film Works

Missionfilmworks.org
Complete web, identity, design, and development. Developed custom WordPress theme. Linux, Apache, MySQL, PHP, WordPress

2012
Rae Images

raeimages.com
Complete web design & development. Developed custom WordPress theme. Linux, Apache, MySQL, PHP, WordPress

2012
Nicholson Yoga Therapy

Nancynicholsonyogatherapy.com
Complete web, identity, design, and development; Linux, Apache

2012
All Seasons AC & Heating

allseasonsacandhtg.com
Redesigned existing website and added CMS features; Linux, Apache, MySQL, PHP

2012
Invision Mirrors

Invisionmirrors.com
Complete web design & development. Developed custom WordPress theme. Linux, Apache, MySQL, PHP, WordPress

2011
Patterson Air

gopatterson.com
Redesigned existing website. Created seasonal advertising campaign, Apache, PHP

2011
Hinson Mechanical

hinsonmechanical.com
Complete web design & development; Linux, Apache, PHP

2011
American Comfort

americancomfortsolutions.com
Redesigned website and built on Joomla! CMS. Created advertisements; Linux, Apache, MySQL, PHP, Joomla!

2010
Effective Media Solutions

myeffectivemedia.com
Complete web, identity, design, and development. Flash website with HTML fallback; Linux, Apache, Flash

2009
Phase2 Productions

Phase2productions.info
Complete web, identity, design, and development. Created custom Flash video player; Linux, Apache, PHP, Flash

2009
Susan Morrow

susanmorrow.us
Complete web, identity, design, and development; NextJS, React, Vercel

2008
College Career Advisors

Collegecareeradvisors.com
Complete web, identity, design, and development; PHP, Linux, Apache

2008
Blue Ribbon Recipes

Barbstrickler.com
WordPress setup and customization; Linux, Apache, MySQL, PHP, WordPress

2006
IAC Music

Iacmusic.com
Custom Flash media player & photo slideshow for artist pages; Flash, MySQL, PHP

PERSONAL
...Continued

TOOLS
TypeScript, NextJS, React, React-Native, React Query, Svelte, Electron, Angular, Astro, Vue, NodeJS, JavaScript, Docker, Wordpress, Flask, Django, Wagtail, build tools, Babel/Webpack/Vite, CI/CD, REGEX, Git, SQL, MySQL, PostgreSQL, MongoDB, Jenkins, AdobeCC, Figma, Linux, AWS, SQS, SNS, Lambda, Cloudflare, Azure, Selenium, DNS, RPA, JQuery, Bootstrap, Tailwind, Sass, Scss, Micro-services
Other: Actionscript / Java / C / C# / C++ / Haskell / F# / Prolog

INTEGRATIONS
Contentful, Stripe, CommerceTools, Plytix, Algolia, Mielisearch, PagesCMS, SanityCMS, TinaCMS, Wordpress, Django, Wagtail, Laravel, CakePHP, Drupal

OPEN-SOURCE
...Continued

2022
React Libraries

React Component Libraries
Open-source component libraries for react.
react-ruffle | react-is-online-context | react-github-readme-md

2015
NPM Libraries

Collection of Open-Source NPM Libraries
album-art | movie-art | movie-info | movie-trailer; etc thousands of weekly downloads

2015
Cinematic

Cinematic: Desktop Movie Organizer
NodeJS + Meteor desktop app: Movie organizer and player; Meteor, MongoDB
